The sound of

Eastern Oregon State College

Well! Response to the last playlist was much better. I'm glad about that--as they did get quite cluttered and were very time consuming to put together--listing all the album spotlights and various shows, etc., etc. got boring to some--let alone that I printed them in teeny tiny handwritten print and some people can't read them.

Here we are at spring break. From the period March 17th-26th, we will only be on nights. As always, contact the music director through KLEB radio weeknights and Saturdays from 5 p.m. to midnight at (503) 963-4121 regarding any Q's about format and any burning questions about music. Save on those phone bills by calling after eleven p.m. your time or call Saturdays.

As spring rolls arounds, I'll be out and about as well, and coming up will be a revised list of indie distributors, also a new list of adventurous radio stations within a half a day's drive from here you should be sending records to, and hopefully updates on alternative record stores, and local bands playing, the club scene, etc.

Here again are the new adds in alpha beta order (supercedes the new adds from last month's playlist). These songs received airplay three times a week to open up; about $\frac{1}{4}$ of them are easily above five plays a week.
